# THE HOOK POINT GUIDE TO GOING VIRAL

# WATCH THE GUIDE TO GOING VIRAL FREE WORKSHOP

# BRENDAN KANE IS THE FOUNDER & MANAGING DIRECTOR OF HOOK POINT.

**Since 2005, Brendan and his team have helped the largest brands and celebrities in the world reverse engineer how to make content go viral. Hook Point's accomplishments include:**

- Developed the first ever influencer campaign on YouTube in 2007
- Oversaw over $300 million in market spend
- Worked with major corporations like MTV, Viacom, Vice Magazine, Paramount Pictures, IKEA, and Sketchers shoes
- Helped clients generate over $1 billion in revenue
- Helped celebrities like Taylor Swift, Rihanna, and Adriana Lima craft a digital strategy and build a strong social presence
- Authored the best-selling books *One Million Followers: How I Built a Massive Social Audience in 30 Days*, and *Hook Point: How to Stand out in a 3-Second World*

# WHAT WE WILL BE COVERING TODAY:

Creating viral content isn't luck, it's science

Understanding how social media algorithms work

How to make content the algorithms will love

A simple truth to consistently going viral

The Hook Point Viral Content Model

AFTER 17 YEARS OF CANVASING THE ENTIRE SOCIAL ECOSYSTEM, ANALYZING BILLIONS OF VIEWS AND TENS OF THOUSAND OF VIDEOS, WE CRACKED THE CODE ON SOCIAL CONTENT CREATION.

BRANDS HAVE BEEN DOING IT WRONG FOR THE PAST DECADE.

AND IF BRANDS DON'T CHANGE THEY WON'T BE RELEVANT 2 TO 5 YEARS FROM NOW.

WHY WOULD THROWING THINGS AGAINST THE WALL WORK WITH HUMAN BEINGS?

IT'S NOT ABOUT QUANTITY, IT'S QUALITY.

CONTENT DOESN'T GO VIRAL WHEN A CREATOR GETS LUCKY.

CONTENT GOES VIRAL WHEN A CREATOR UNDERSTANDS THE SCIENCE BEHIND VIRALITY.

# THERE ARE NOW 4 BILLION CONTENT CREATORS FIGHTING FOR THE SAME ATTENTION YOU ARE.

Your content is competing directly with all of it.

Do you want to know how to win this fight?

THE ALGORITHMS CONTROL DISTRIBUTION OF CONTENT.

THEY ARE ENGINEERED TO FAVOR CONTENT THAT GRABS AND HOLDS ATTENTION FOR AS LONG AS POSSIBLE.

YOU CAN'T BEAT THE ALGORITHMS,
BUT YOU CAN PARTNER WITH THEM.

# MAKE CONTENT THAT THE ALGORITHM WILL LOVE.

That's it. That's how you get your content to go viral.

Learning how to make content that the algorithm loves isn't easy, but it is simple.

# HOOK POINT'S MODEL IS BUILT TO UNDERSTAND AND ADAPT TO HOW THE ALGORITHM WORKS.

And we have the data to prove it.

# WE HAVE HELPED CREATE CONTENT THAT'S GENERATED 60 BILLION VIEWS AND 100 MILLION FOLLOWERS.

Using a systematic approach we developed called Hook Point's Viral Content Model.

# IF YOUR CONTENT IS ONLY REACHING A FEW THOUSAND PEOPLE, WHAT IF YOU COULD START REACHING AN AUDIENCE 10X THAT SIZE?

Or 100X that size?

Or 1,000X?

What kind of impact would that level of reach have on your business's bottom line?

# HERE IS HOW YOU CAN WORK WITH THE ALGORITHM TO SEE RESULTS:

## GRAB ATTENTION

**Grabbing attention, you are able to rise above the noise**

+

## HOLD ATTENTION

**Attention with substance extracts the most value from your content**

+

## MONETIZE ATTENTION

**Attention is maximized once you monetize it**

=

## VIRAL MARKETING AT SCALE

We aren't talking about silly cat videos, pranks, and other stunts created just to grab attention. With Hook Point's creative process we generate virality that translates into scalable commerce.

CREATING CONTENT THAT GRABS AND HOLDS ATTENTION IS YOUR GOAL;

**HERE'S HOW YOU GET IT DONE:**

# MASTER CREATING CONTENT THAT GETS PEOPLE TO STOP SCROLLING AND WATCH IT LONGER THAN YOUR COMPETITORS' CONTENT:

By creating content that performs up to the algorithm's standards you can literally make the algorithm serve it to its users.

# THERE IS ONLY ONE PROVEN MODEL FOR BECOMING AN EXPERT AT CREATING CONTENT THE ALGORITHM WILL LOVE:

# HOOK POINT'S CREATIVE PROCESS:

1. Viral Content Model
2. Qualitative Analysis of Viral Formats
3. Communication Algorithm

# HOOK POINT'S VIRAL CONTENT MODEL

# THE FRUSTRATING THING ABOUT CREATIVE:

In almost every form of innovation, centuries of trial and error, data, and experience are leveraged to help ensure success and guide innovation.

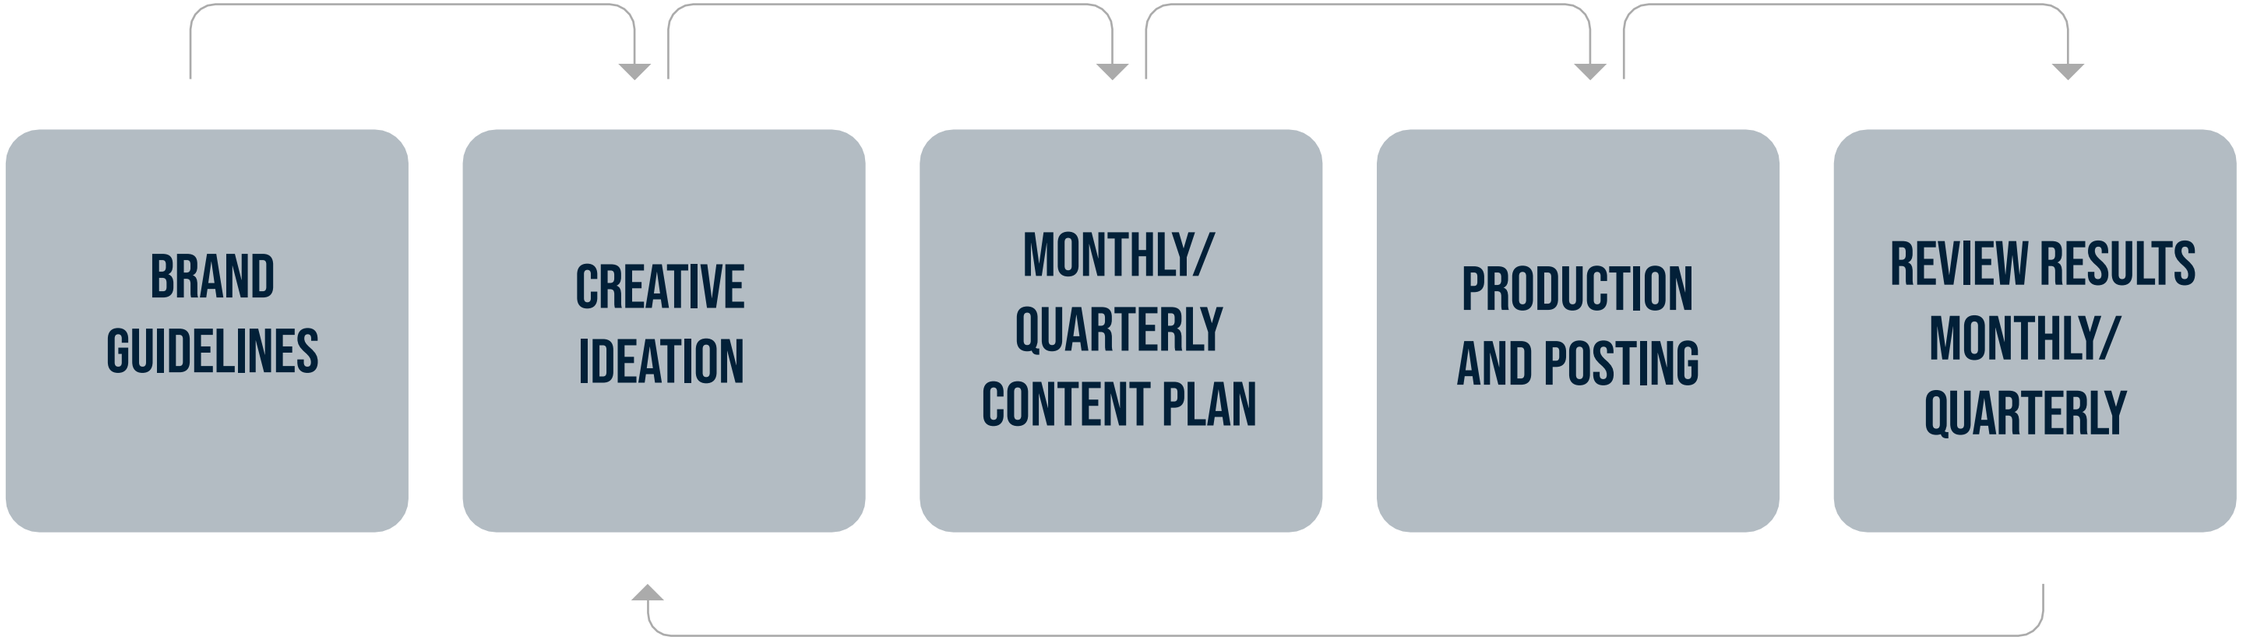

But when it comes to content, all of those invaluable data points and results are often discarded in the pursuit of “originality.”

Why? Because many creators believe that originality trumps functionality.

To make matters worse, the traditional creative model that is usually applied to content is no longer relevant.

# THE TRADITIONAL CREATIVE MODEL

This is the outdated method most companies and content creators still rely on

# DO YOU WANT TO KNOW WHY THIS MODEL DOESN'T WORK IF YOUR GOAL IS TO CREATE CONTENT THAT GOES VIRAL?

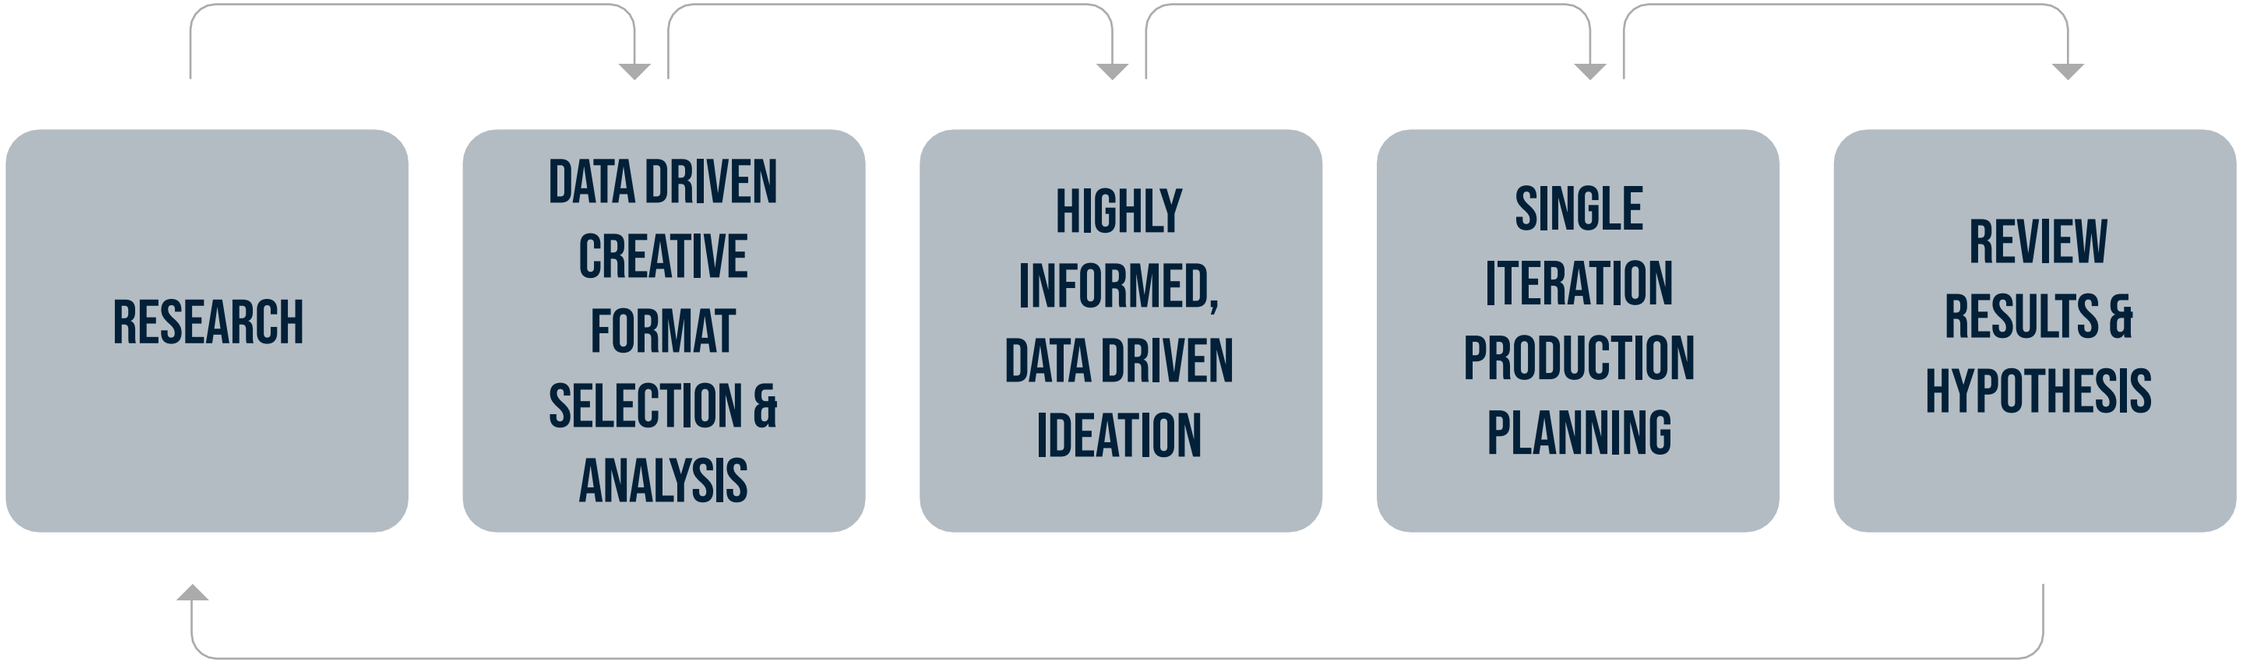

- It minimizes the impact of data and research that is required for success.
- It pushes content creators to chase trends and burn themselves out, producing hundreds of underperforming videos.
- It is completely reactive: there is no process in place for accountability, iteration, and learnings of each piece of content produced.
- It makes your chances of going viral completely dependent on luck.

*As a result, 99.9% of all the branded content developed using this model fails.*

# SO WHAT DOES WORK?

# HOOK POINT'S VIRAL CONTENT MODEL

This model merges Content Development with Meaningful Methodologies

# WHY THE HOOK POINT MODEL WORKS FOR CONTENT:

- This model's foundation is research – rather than the creator's affinities.
- It provides data-backed competitive analysis required for consistent viral content breakthroughs.
- It utilizes data to inform the ideation process and avoid this common boardroom conversation: "We have a room full of people with great ideas, but our content never goes viral".
- It increases efficiency, saving a ton of time, energy, money and resources.

# THE HOOK POINT MODEL HAS BEEN SUCCESSFULLY APPLIED TO CREATING CONTENT THAT HAS GENERATED 60 BILLION VIEWS AND OVER 100 MILLION FOLLOWERS.

We've consistently made it work for brands starting with zero followers or views.

We've consistently made it work for brands starting with millions of followers and views.

# QUALITATIVE ANALYSIS OF VIRAL FORMATS

# TREND VS FORMAT

**Trend** is a post, topic, or an idea that is hyped or popularized for a limited period of time.

**Format** is a storytelling structure that is designed to work for any subject matter and **last for years, even decades.**

# A SIMPLE TRUTH TO GOING VIRAL: MASTERY OF A SINGLE FORMAT

Going viral isn't about producing as much content as possible, hash tags, chasing trends, time of day...

Going viral is about focusing your time, energy and resources on becoming world class at executing a single top performing format.

# HOOK POINT'S QUALITATIVE ANALYSIS

# QUANTITATIVE VS QUALITATIVE

Over the past decade brands have relied on quantitive analysis, focusing on views, likes and shares. This simply isn't enough and causes **99% of brands to fall short**.

Numbers tell you if something works but doesn't tell you WHY it worked.

Qualitative analysis provides these answers.

HOOK POINT METICULOUSLY RESEARCHES TOP PERFORMING FORMATS TO GLEAN QUALITATIVE INSIGHTS THAT CONSISTENTLY DRIVE RESULTS.

# EXAMPLE FORMAT: VISUAL METAPHORS

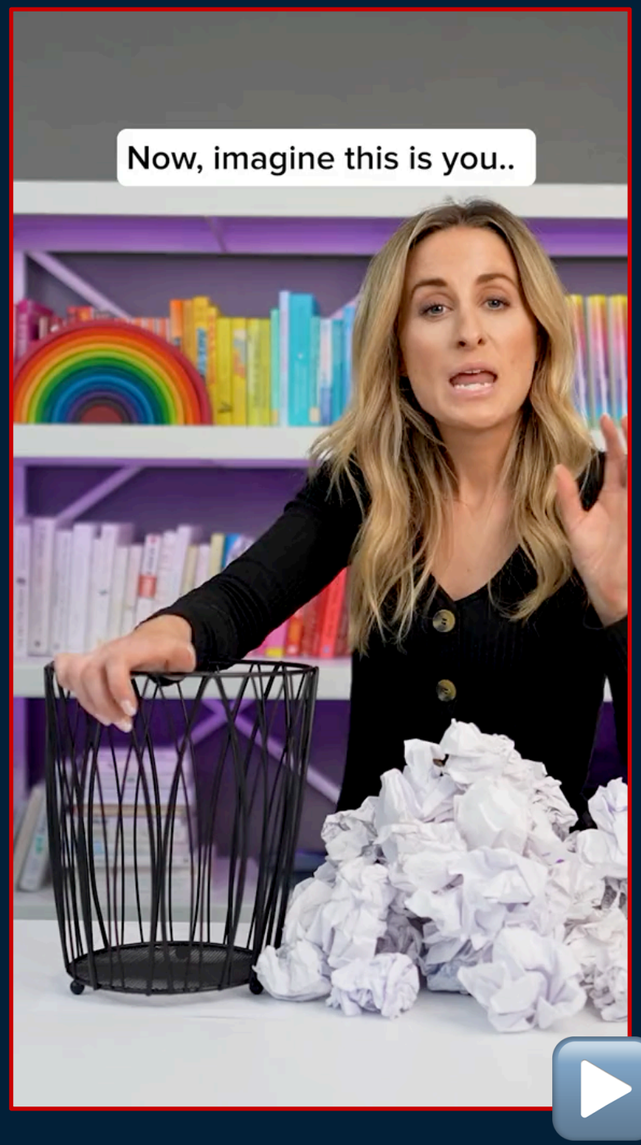

This format involves 3 major elements:

- An abstract or complex topic
- A visual representation of the topic with physical objects
- A verbal explanation of the topic

# How we uncover the WHY:

**Gold | Silver | Bronze (GSB)** is a foundation to our Qualitative research process.

1. Collect references of videos in a specific format.
2. Include Quantitative data along with any patterns you notice.
3. Create hypotheses of the Qualitative differences between high performers and low performers.

Now, imagine this is you..

Imagine for a moment
that you're stood..

## Gold Video: 12M views

**Active Metaphor**
A clear visual story that involves manipulation of the object, demonstrating the topic of the video (trauma).

**Tension**
Within the first 4 seconds there's a clear problem (overflowing basket) that lingers on screen

**Potential Energy**
Within the first second the basket and pile of papers hint to the viewer that there will be an interaction.

**Clever**
Using everyday objects to demonstrate what it's like to live with trauma is unexpectedly smart.

## Bronze Video: 130K views

**Active Metaphor**
Instead of using an active metaphor, she asks the viewer to imagine the scenario, and doesn't manipulate the object.

**Tension**
Without a clear visual problem, there's no visual tension.

**Potential Energy**
She doesn't reach for a car or have another object implying interaction. All she promises is a visual story.

**Clever**
Instead of an unexpected smart demonstration, she asks the viewer to do work by imagining her metaphor.

# HOOK POINT FORMAT PERFORMANCE DRIVERS:

## Visual

Color
Composition
Lighting
Satisfying
Videography
Graphics
B-roll
Text
Production value

## Storytelling

Script structure
Story structure
First 3 seconds

Golden Triangle
Analogies
Content layers
Absurdity
Completing the scale

## Delivery

Cadence
Dynamics
Vocal delivery
Humor
Language usage
Cleverness
Generalist approach
Rare combinations
Music

# THE COMMUNICATION ALGORITHM

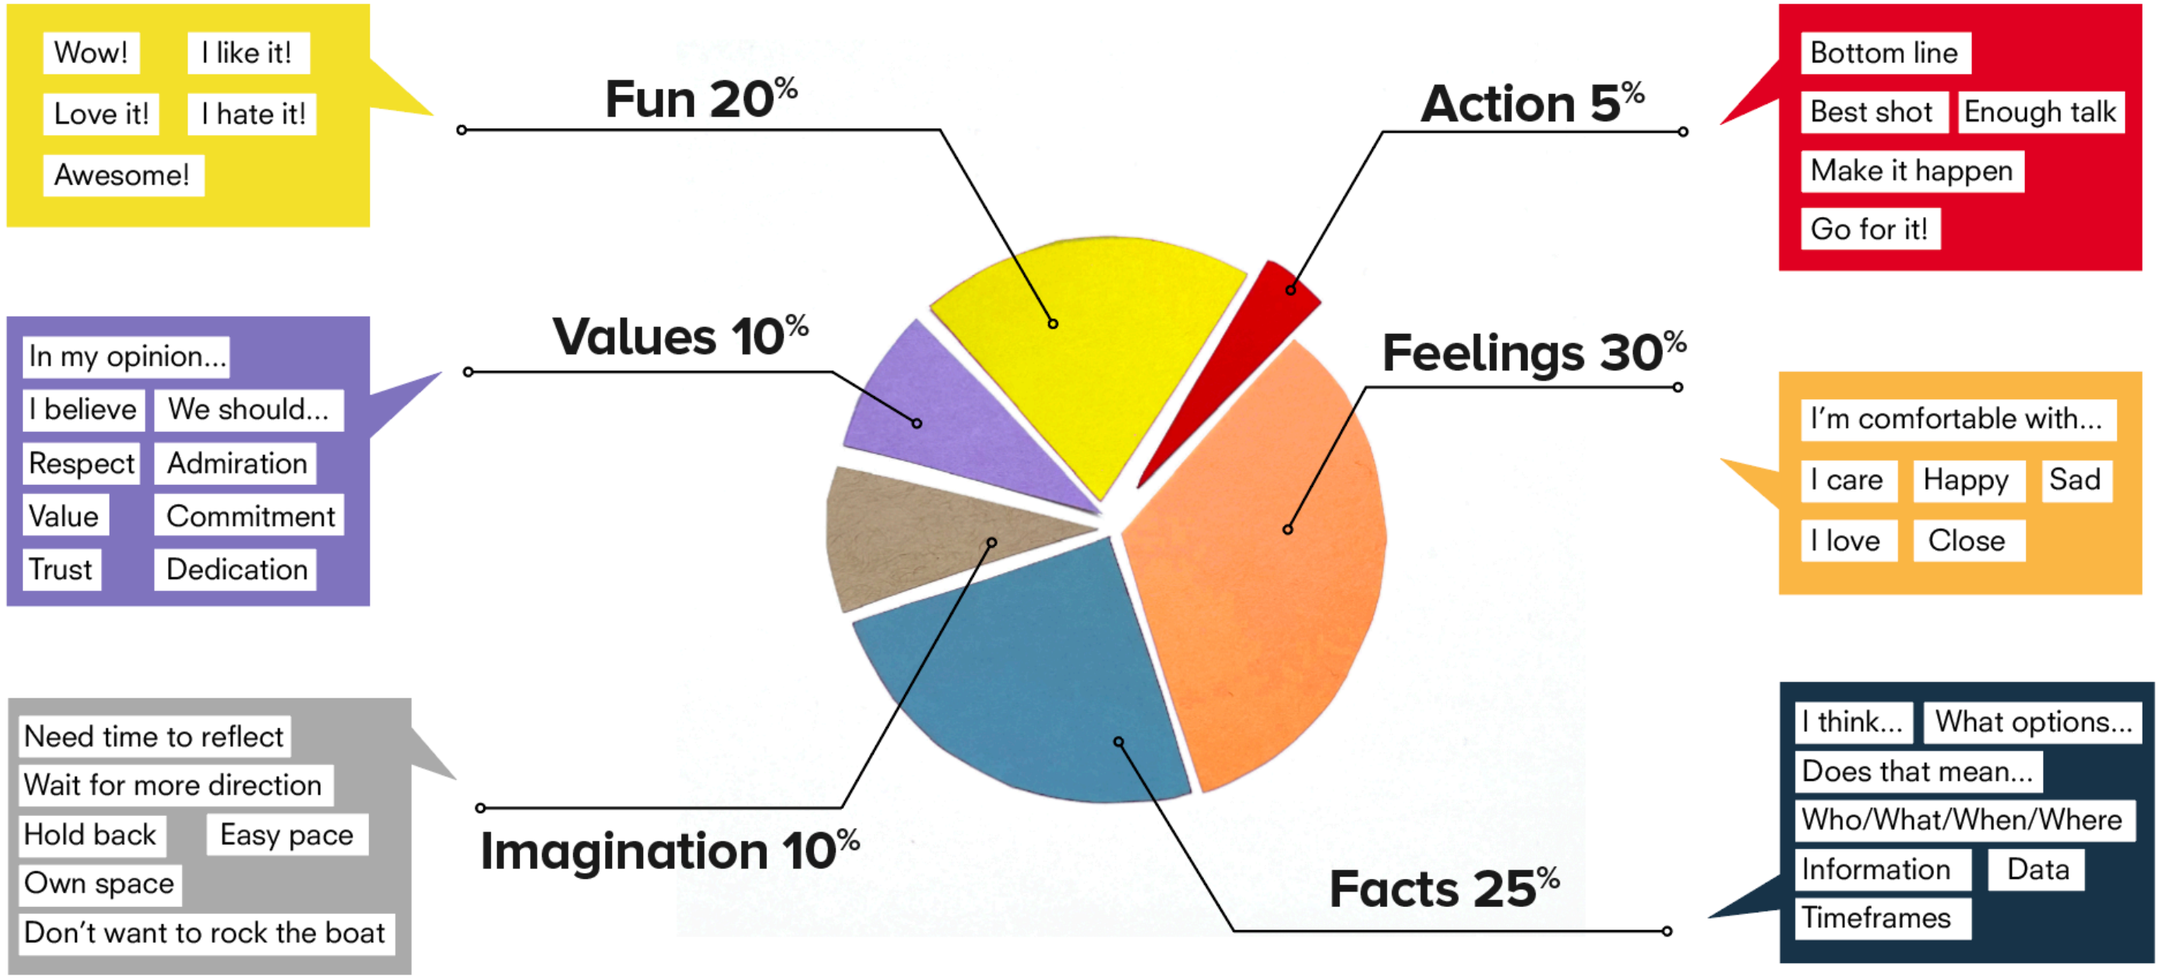

# THE HOOK POINT COMMUNICATION ALGORITHM

Our proprietary internal data (generated by 1.5 million profiles worldwide) shows that most of the content created by brands connects with less than 30% of their core audience – and in some cases alienates up to 70% of that audience (causing brands to lose millions).

Hook Point's Communication Model turns marketing communication into actionable math to help ensure your content succeeds in going viral.

# THE HOOK POINT COMMUNICATION ALGORITHM FOR GOING VIRAL

Commonly used phrases, based on 1.5M+ individual assessments

# IMAGINE THIS SCENARIO:

**Your Marketing Director**

Female
30-35 years old
High Income
Macy's Shopper
Has Children
Married
University Educated

**Your Customer**

Female
30-35 years old
High Income
Macy's Shopper
Has Children
Married
University Educated

*They look the same on paper...*

*...but these are their communication styles:*

**Your Marketing Director**

- Feelings
- Values
- Fun
- Facts
- Imagination
- Action

**Your Customer**

- Action
- Imagination
- Facts
- Values
- Fun
- Feelings

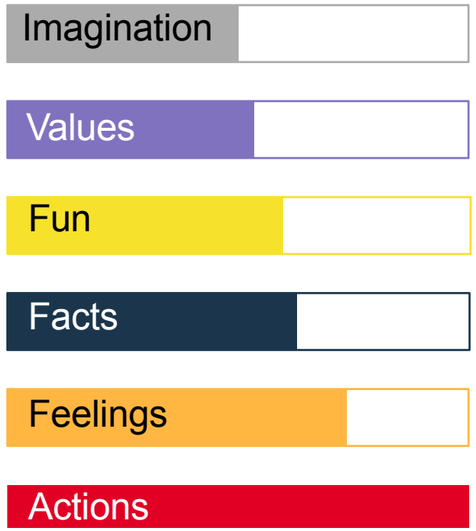

*See the problem?*

# THE CORE PROBLEM

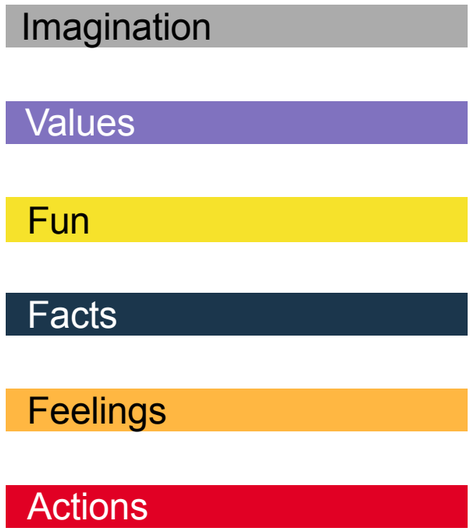

Most content is designed to best fit how the creator perceives the world, instead of utilizing all 6 different ways that people communicate and engage with the world.

As a result, it alienates a large percentage of the population, causing the content to fall flat.

# INSTEAD OF YOUR MARKETING COMMUNICATION LOOKING LIKE THIS...

# THE COMMUNICATION ALGORITHM MAKES IT LOOK LIKE THIS.

# HAVING THIS LEVEL OF BALANCE IN YOUR CONTENT ALLOWS YOU TO GRAB ATTENTION, HOLD ATTENTION, AND MONETIZE ATTENTION WITH CLARITY, PURPOSE, AND INTENTION.

This is achieved by knowing exactly:

- What words and phrases to use and avoid in your communication
- The exact body language and facial cues to use and avoid
- The best environments and settings for your content in

# HOOK POINT CASE STUDIES

# SUCCESS STORIES

— CASE STUDY

## Dr. Erin Nance

Erin went from 0 to 200K Followers in two weeks.

**View case →**

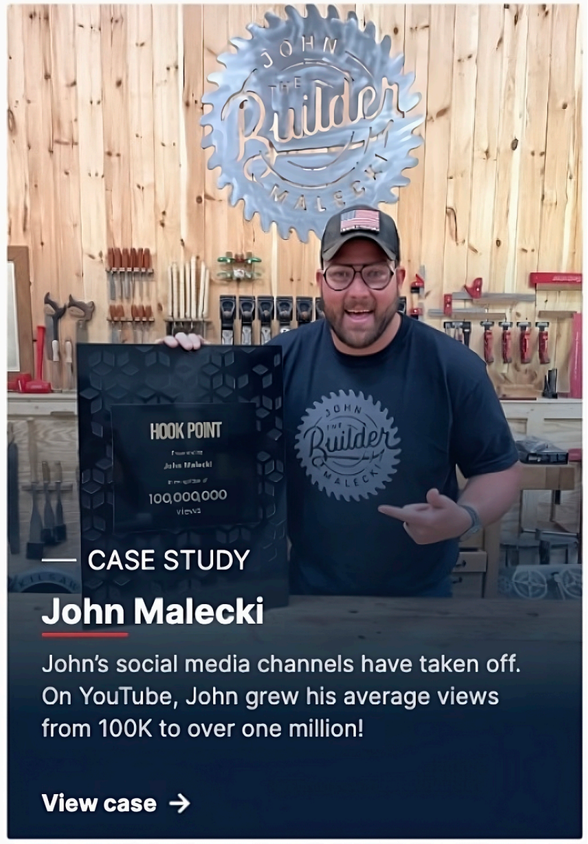

— CASE STUDY

## Tanner Leatherstein

2,000 to 800,000 followers on TikTok in 6 months

**View case →**

— CASE STUDY

## John Malecki

John's social media channels have taken off. On YouTube, John grew his average views from 100K to over one million!
